JOURNAL OF THE AMERICAN STATISTICAL ASSOCIATION

The Editors welcome the submission of manuscripts for possible publication. They should be typewritten entirely double-spaced, including footnotes, and two copies should be sent to the Editor, John W. Pratt, Harvard Business School, Boston, Massachusetts, 02163. Nearly all articles accepted by the *Journal* are published in the first issue to go to press after the manuscript has been put in final form by the author. This means that an article ordinarily appears four to five months after it is received in final form in the editorial office. Time spent in considering manuscripts can be reduced if authors will exercise care regarding legibility, style, and completeness of references to related work.

Books for review should be sent to JASA Book Review Editors, Department of Statistics, Stanford University, Stanford, California. Unsolicited book reviews are not accepted, but suggestions of titles for review are welcome and review articles will be given the same editorial consideration as other articles.
